PROGRAMME OVERVIEW

This course provides you with an in-depth overview of the purpose and requirements of the BRC standard. The training is to provide full understanding of the general principles of the BRC Food Issue 8 Standard and how to comply with the requirements. Delegates will also gain an understanding of what to expect during the process of certification as well as actions needed before, during and after a BRC Food Issue 8 audit. The training includes Senior management commitment; continual improvement; HACCP; Food Safety & Quality Management Systems; site standards; product control; process control; and personnel.

Organized by :
Laboratory of Food Safety and Food Integrity,
Institute of Tropical Agriculture and Food
Security, UPM, &
